Customer Information

Bearcat Research and Consulting, LLC (BCRC) is a unique company operating at the crossroads of federal research and development institutions, intelligence and national security programs, and private sector entrepreneurialism. BCRC was formed in 2017 as a veteran operated Limited Liability Company to provide focused research and consulting services to the federal national security community and its commercial and industry partners. BCRC is distinctively talented at bringing entrepreneurialism and innovative thinking to national security programs and enable our customers to overcome bureaucratic status quo to bring about revolutionary change.

EDUCATION/EXPERIENCE SUBSTITUTION POLICY

We recognize that successful performance depends on having personnel with the right skills and experience. These skills and experience are acquired through a proper mix of education and professional experience. We have found that skills required to support advanced technology efforts, today's problems and tomorrow's challenges, are not always supported by the traditional combination of formal education and work experience. Therefore, we have incorporated substitution allowances between equivalent education and experience in order to provide the quality of services required by the customer at the most reasonable price.

The following tables present substitution equivalencies for education and experience requirements.

Degree Requirement	Equivalent Experience Substitution
High School	GED
Associate	High School plus two years related experience
Bachelor's	High school plus four years related experience or Associate's degree plus two years related experience
Master's	Bachelor's degree plus two years related experience or Six years related experience
